PREFACE

This summary contains additional information on the "new" and "change" intelligence targets listed in the Mission Index (MI) report for this mission. A "new" target is either a newly identified installation or a known installation which is being reported for the first time by NPIC. A "change" target is an installation where a major change is observed in facilities. Also included under "change" targets are those installations where analysis of current photography furnishes more precise information.

Items in this report are arranged in two sections --

The first section provides a description of new targets.

The second section provides a description of change targets.

Targets listed as "new" or "change" in the MI which are not included in this report have been omitted because further analysis negated the identification of the "new" targets or revealed no significant change in the "change" targets.

Targets are arranged 1) by country, 2) within the country according to subject, 3) within the subject by WAC area, and 4) within the WAC area by geographic coordinates in ascending order. The map base used (when available) for the derivation of coordinates in the MI is the latest edition of the US Air Target Chart, Series 200.

The header line for each target contains, reading from left to right, the installation name, the geographic coordinates, the World Aeronautical Chart number, the Bombing Encyclopedia (BE) number, and the NPIC target number.

The COMOR target number, when available, appears above the photo reference data.

Photo reference data includes all photo references, and symbols denoting the limiting conditions, photo interpretability, target coverage, and the mode.

Symbols for limiting conditions affecting photography are C (Clear), SC (Scattered Cloud Cover), HC (Heavy Cloud Cover), H (Haze), CS (Cloud Shadow), S (Snow), O (Obliquity), SD (Semidarkness), GC (Ground Cover), CF (Camouflage), and GR (Ground Resolution).

Interpretability of the photography is categorized as G (Good), F (Fair), or P (Poor). Target coverage is denoted by the symbols T (Total) or PT (Partial). The mode of coverage is indicated by ST (Stereo), PS (Partial Stereo), or NS (Non-Stereo).

For the convenience of the user, an index to all targets is included following the second section. Targets in the index are arranged alphabetically within a country.

AN AREA OF UNIDENTIFIED CONSTRUCTION IS
LOCATED JUST OFF THE SW END OF THE RUNWAY.
AIRCRAFT -- NONE OBSERVED.

MILITARY INSTALLATIONS

BIR HASANAH POSS MILITARY STORAGE AREA
23 NM SW OF BIR HASANAH AND 1 NM NORTH OF
BIR HASANAH AIRFIELD.

INSTALLATION CONSISTS OF 2 AREAS.

AREA A (EAST OF AIRFIELD) CONTAINS 18
PROBABLE TENTS AND 4 SMALL MOTOR VEHICLE
PARKS WITH NUMEROUS VEHICLES/PIECES OF
EQUIPMENT.

AREA B (NE OF AIRFIELD AND SITUATED ALONG
BOTH SIDES AND WEST OF RIDGE) CONTAINS
APPROXIMATELY 38 PROBABLE TENTS, 2 LARGE
PROBABLE STORAGE BUILDINGS, 1 POSSIBLE
SECURED MOTOR VEHICLE PARK WITH 2 PROBABLE
TENTS, AND NUMEROUS VEHICLES/PIECES OF
EQUIPMENT.

25X1

AL ARISH SPECIAL AREA
ON THE COASTLINE, APPROXIMATELY 25 NM WEST OF
THE GAZA STRIP ARMISTICE LINE.
AL ARISH, SERVED BY BOTH RAIL AND ROAD,
IS APPROXIMATELY 1 NM SQ WITH SOME
DEVELOPMENT EXTENDING SOUTH. JUST WEST AND
SOUTH OF THE TOWN IS AN AGRICULTURAL
AREA THAT EXTENDS TO THE AL ARISH AIRFIELD.
